COMPANY PROFILE 2024

**The professionals
in the steel industry**

www.csc.sr

WHO ARE WE?

Caribbean Structural Consultancy N.V.

is a consulting firm that specializes in structural design, engineering and project management of steel structures.

The company is owned by shareholders stemming from engineering and construction backgrounds. Our experienced steel professionals start with the design of the main load-bearing structure and work it out up to the detailed calculations, opting for the most efficient approach.

The company stands out from the rest with its professionalism and qualified team to undertake projects.

MISSION

- To improve steel structure design and engineering efficiency and optimize productivity at a minimal cost.
- Facilitate the company with adequately competent staff
- Maintain a high level of professionalism
- Add significant value to our clients

VISION

To create high value as a company of choice in engineering and project management professional services by being influential in the industry.

VALUES

- Sound business ethics
- Honesty and transparency
- Professionalism, partnership, and cooperation with clients and stakeholders

WHAT WE DO

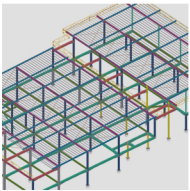

ARCHITECTURAL DRAFTING AND DESIGN

Our designers will discuss the wishes and details with the client and make them come to life on paper.

STRUCTURAL ENGINEERING

We believe in open cooperation and determine a plan in consultation with the client, which will be carried out in accordance with the applicable company-specific production regulations.

PRODUCTION/SHOP DRAWINGS

Our draftsmen bring the project to life by drawing it in 3D. All profiles, details and fasteners are included and provide both the customer and the manufacturer with information about the amount of material and labour the project requires.

STEEL FABRICATION & INSTALLATION

We also provide the client with the fabrication and installation of the steel structure.
